

1Q)

Bob applied for a posting in an intelligence agency. As part of onboarding program, the agency has asked the candidate to meet up at a certain location. This information was shared via the following:

Subject : Meetup

Attachment: Location.jpg

Find the attached to meetup and proceed as required.

But there was no location in the email. The jpg file contained a picture of an Hotel of not his country.

Bob understood that the location was hidden deep with the picture itself.

Decode the picture get its longitude, longitude and altitude and add them

2Q)

Bob was recruited by the intelligence agency.Hurray!

For the past half hour bob was assigned to monitor network traffic across the country

While doing he comes across a suspicious domain “gogogle.com” Lookup on the domain and Find the registrar name

Omit the “Inc” while answering

3Q) An encrypted note was sent to bob by one of the spies from the intelligence agency

“Meet me at the coordinates of the building shaped like a guitar.”

You found that this “guitar-shaped” building exists somewhere on Earth — but where?

Which state is this building in?

4Q)One of bob’s colleague has hidden a secret message in the website “asebface.in” and it is crucial for your further works.

Decode the message and give the third word

5Q) Bob wants to find out how many data breaches has his email address been associated

Email: "BOB@gmail.com"

Find the suitable website and look up on the no. of data breaches
